SPINNAKER®

Meet our family of home computer and video software—Spinnaker Software Corp.

Designed to meet the different needs and interests of everyone in your family, Spinnaker Software products offer some of the leading computer software and video titles available in the educational, entertainment and home productivity areas.

Take computer software: For starters there's the SPINNAKER® line. From pre-school counting to high-school compositions, Spinnaker offers high quality, award winning, educational programs you've come to expect.

And with our FISHER-PRICE™ Learning Software, children can develop key learning skills in areas such as math and reading while having fun at the same time.

For adventure fans, try our TELARIUM™ and WINDHAM CLASSICS™ software products. These two graphics and text interactive adventure brands are based on best-selling science fiction and mystery books and well-known classic novels. Our entertainment offerings also include UXB, our new line of action games.

And if you're looking for powerful, easy-to-use and affordable home productivity software, there's BETTER WORKING™ from Spinnaker.

We also offer a new line of video tape products: The SPINNAKER® VIDEO series, including the Spinnaker workbooks, are engaging visual experiences that teach children fundamental learning skills like reading and math.

And the CAPTAIN KANGAROO video programs develop important life skills and social values for young children.

Our Sports Videos feature instruction by leading golf and tennis professionals. Also available are Space Videos that offer exciting footage of the landing on the moon and space shuttle missions.

Our latest video releases include two SAT Videos that feature a Math and Verbal review and practice. These products are guaranteed to increase your score. We also have two exciting interactive Mystery Videos in which you and your family try to solve a murder by uncovering evidence and finding clues.

So, when your family is looking for computer and video software, take a look through the pages of this catalog and meet the Spinnaker Software family of computer and video products.
